Google Hangouts Meet from a laptop / computer

To be better prepared for your future appointments via video, please see the instructions below for how to access your session via a web browser. You do not need a Gmail or Google account to join meetings.

Compatible web browsers:

- Google Chrome
- Mozilla Firefox
- Microsoft Edge
- Apple Safari

In your web browser go to:

meet.google.com

Then click the green “Use a meeting code” box

Enter the code provide to you.

Make sure you allow the browser to have access to your camera and microphone.

Then enter your name and click “Ask to join”.

Once your clinician or doctor accepts you will be entered into the video session.
