Other Involved Persons:	Role/Agency:	Address/Phone No.:

Must meet all criteria below:

- Between the age of 5 & 20 years, 11 months
- Resides in Herkimer County
- Child is experiencing a psychiatric crisis so severe that unless immediate effective intervention is provided, the child/youth will likely be admitted to a psychiatric hospital or placed in a treatment residence.

More specifically, acute psychiatric crisis is defined by the presence of at least two of the following criteria

- Current, persistent, and severe major symptoms and/or behaviors (affective, psychotic, suicidal or significant impulse control issues) that are contributing to a current state of crisis for the child;
- Child and/or family has not adequately engaged or responded to treatment in more traditional settings;
- Home environment and/or community unable to provide necessary support for developmentally appropriate growth required to adequately address mental health needs in current crisis;
- High use of acute psychiatric hospitals;
- High use of psychiatric emergency or crisis services;
- Clinically assessed to be at immediate risk of requiring a more restrictive living situation (community residence, Residential Treatment Facility (RTF); acute inpatient psychiatric treatment/state operated psychiatric hospital-including rapid readmission to a hospital-without intensive community services.
